

Isolation Booth

Panel In	Mic	Instrument	Mic Pre	Other	Console In	Tape In	Notes

Each input panel has 12 mic inputs. 1 panel of 12 inputs in the Tracking Room is not listed on the table. If the Furman "More Me" HMS16 headphone mixing system is being used most of these inputs will be unavailable for mics. The Iso booth is not equipped to run the Furman headphone system and uses a standard stereo monitor patch.
